Legal Notices

This Documentation, which includes embedded help systems and electronically distributed materials (hereinafter referred to as the "Documentation"), is for your informational purposes only and is subject to change or withdrawal by erwin Inc. at any time. This Documentation is proprietary information of erwin Inc. and may not be copied, transferred, reproduced, disclosed, modified or duplicated, in whole or in part, without the prior written consent of erwin Inc.

If you are a licensed user of the software product(s) addressed in the Documentation, you may print or otherwise make available a reasonable number of copies of the Documentation for internal use by you and your employees in connection with that software, provided that all erwin Inc. copyright notices and legends are affixed to each reproduced copy.

The right to print or otherwise make available copies of the Documentation is limited to the period during which the applicable license for such software remains in full force and effect. Should the license terminate for any reason, it is your responsibility to certify in writing to erwin Inc. that all copies and partial copies of the Documentation have been returned to erwin Inc. or destroyed.

TO THE EXTENT PERMITTED BY APPLICABLE LAW, ERWIN INC. PROVIDES THIS DOCUMENTATION "AS IS" WITHOUT WARRANTY OF ANY KIND, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. IN NO EVENT WILL ERWIN INC. BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY LOSS OR DAMAGE, DIRECT OR INDIRECT, FROM THE USE OF THIS DOCUMENTATION, INCLUDING WITHOUT LIMITATION, LOST PROFITS, LOST INVESTMENT, BUSINESS INTERRUPTION, GOODWILL, OR LOST DATA, EVEN IF ERWIN INC. IS EXPRESSLY ADVISED IN ADVANCE OF THE POSSIBILITY OF SUCH LOSS OR DAMAGE.

The use of any software product referenced in the Documentation is governed by the applicable license agreement and such license agreement is not modified in any way by the terms of this notice.

The manufacturer of this Documentation is erwin Inc.

Provided with "Restricted Rights." Use, duplication or disclosure by the United States Government is subject to the restrictions set forth in FAR Sections 12.212, 52.227-14, and 52.227-19 (c)(1) - (2) and DFARS Section 252.227-7014(b)(3), as applicable, or their successors.

Reference Data

Reference data sets the permissible values for other data fields. You can view all your codesets (valid values), code crosswalks, and reference data in a tabular grid format in erwin DI Business User Portal (BUP).

To access your reference data, on the menu, click Reference Data.

The Reference Data page appears. By default, the Valid Values tab opens.

To view code mappings, click •••. For more information on viewing code mappings, refer to the Code Mappings topic.

Refer to the following table for descriptions of options under the Filter and Export section.

Option-s	Description
Q	Use this option to search the required <reference_data>.</reference_data>
0	Use this option to download a list of <reference_data> in the XLSX format.</reference_data>
	Use this option to print a list of <reference_data>.</reference_data>
Ш	Use this option to select columns that you want to show in a grid. By default, all the columns are selected.
Ŧ	Use this option to filter <reference_data> based on the available options.</reference_data>

You can access your reference data under:

- Valid values
- Code Crosswalks
- Reference Data

Valid Values

You can view codesets as valid values in erwin DI Business User Portal (BUP). The Valid Values tab displays a list of codesets and you can easily navigate through the list using advance filter mechanisms to view the required codesets. It is possible to analyze code value details and code mappings for each code in the list.

You can view codeset details under the Valid Values tab.

You can use the filter and export options to work on the list. For more information on the filter and export options, refer to the Reference Data topic.

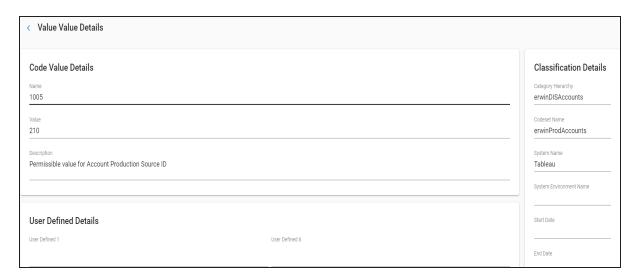

To view code mappings, click . For more information on viewing code mappings, refer to the Code Mappings topic.

Code Value Details

Code value details refer to code name, code value, description of the code, and user defined details.

To view code value details, on the Valid Values tab, click the required <Code_Name>.

The Value Value Details page appears with the Code Value Details and User Defined Details sections.

Code Mappings

Code mappings include details of source and target codesets.

To view code mappings, on the **Valid Values** tab, click for the required code.

The Code Mappings page appears. It displays a list of code mappings.

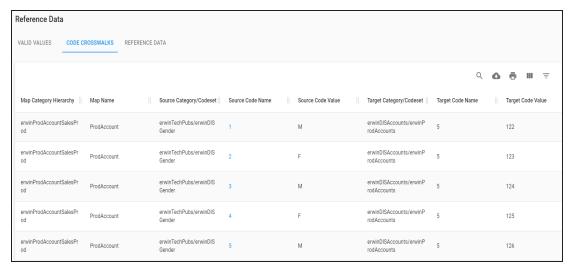

You can use the filter and export options to work on the list. For more information on the filter and export options, refer to the Reference Data topic.

Code Crosswalks

You can view a list of code crosswalks in a grid view and navigate across the list using the advance filter mechanisms.

You can also view details of each code crosswalks that includes source and target details.

To view code crosswalks, on the **Reference Data** page, click the **Code Crosswalks** tab.

You can use the filter and export options to work on the list. For more information on the filter and export options, refer to the Reference Data topic.

You can view code crosswalks details for each source code.

To view code crosswalks details, in the **Code Crosswalks** grid, click <Source_Code_Name>.

The Code Crosswalks Details page appears. It displays Code Map Details, Source Details, and Target Details sections.

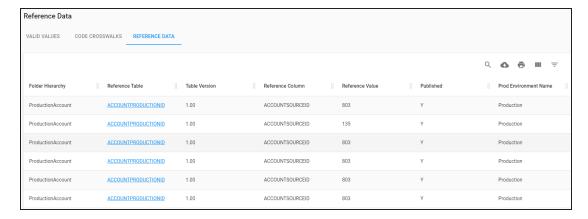

Reference Data

You can view your reference data under the Reference Data tab in a grid view. It includes folder hierarchy, reference tables, reference columns, and so on.

To view reference data, on the **Reference Data** page, click the **Reference Data** tab.
