Release Notes

DI Business User Portal (BUP) Release Notes walk you through the new features made to erwin DI BUP v10.2 version.

What's New

The latest erwin DI Business User Portal (BUP) version, v10.2, has the following new features:

Users and Roles based Accessibility

Socialization

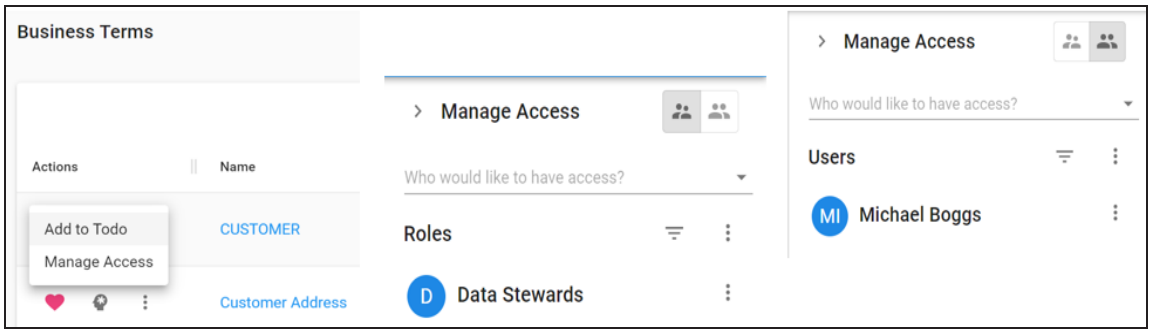
Global Search

To-Do List

The following sections explain each feature in brief. For detailed information about features, refer to the Detailed Features List.

Users and Roles based Accessibility

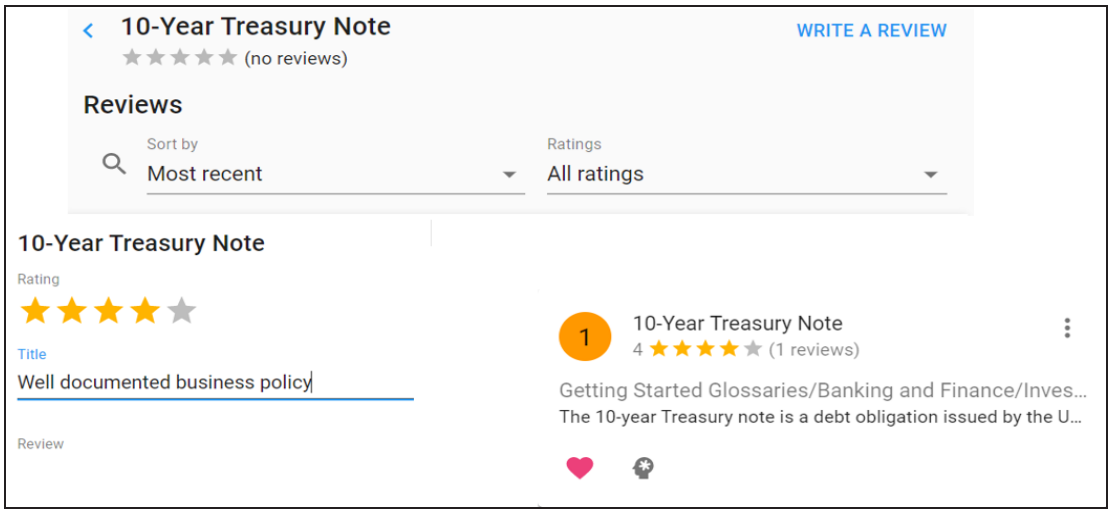
erwin DI BUP now enables you to manage access to technical and business assets based on users and roles.



Socialization

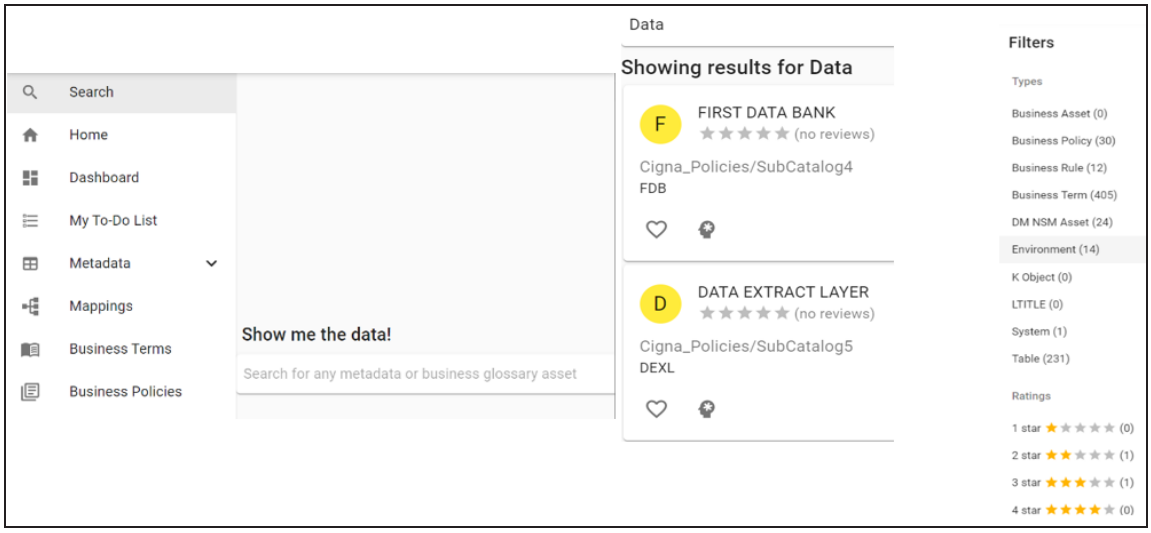
erwin DI BUP now offers socialization in two ways:

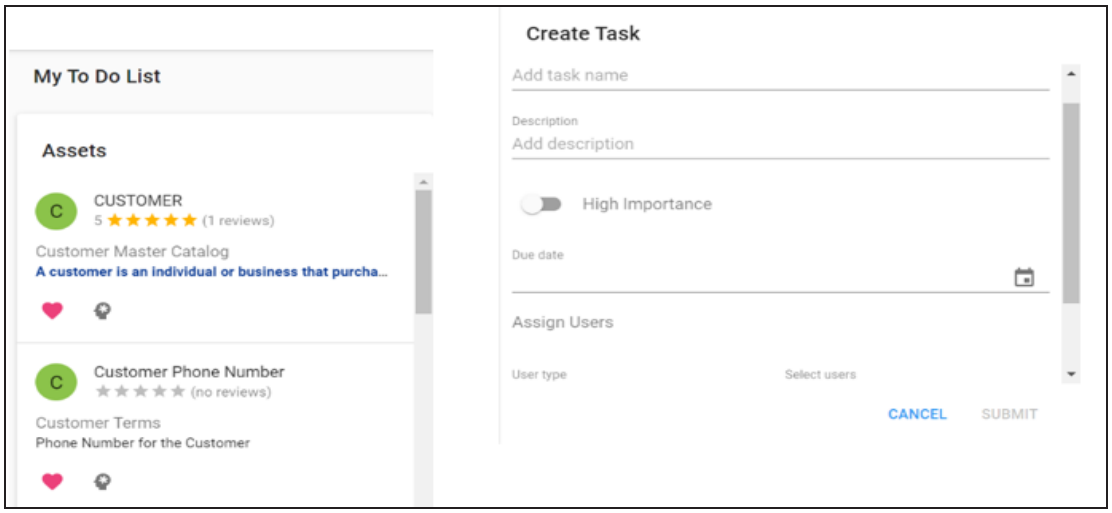
- You can mark frequently used technical and business assets as favorites. Thus, improving asset accessibility.
- You can rate and review technical and business assets. Thus, improving collaboration and enabling data enrichment.



Global Search

erwin DI BUP has a new global search that enables you to search across all the available technical and business assets. It offers advanced filtering mechanisms that further enable you to narrow down the search and derive accurate results.



To-Do List


erwin DI BUP now enables you to add technical and business assets to My To Do List. For these assets, you can then create task lists for a set of activities that need to be performed and assign users to these tasks.
