Mappings

erwin DI Business User Portal (BUP) gives you access to all the mappings available in your erwin Data Intelligence Suite (DI Suite) application. The Mappings page displays mappings in a grid, where you can navigate or use advanced filtering to find a required mapping. You can also open mappings, view their details, and analyze them using source, target, and transformation details. Apart from this, you can also view test specifications related to mappings.

To access mappings, on the application menu, click **Mappings**.

The Mappings grid view appears.

Mappings			
Mapping	Project	Mapping Version	Published?
Files to Northwind	Enterprise DW	1.00	N
Northwind To Advent...	Enterprise DW	1.00	N
Adventureworks To O...	Enterprise DW	1.00	N
ODS to BI	Enterprise DW	1.00	N

Click mappings in the Mapping column to view their [details](#).

In the mapping grid, you can filter, export, and manage access to the mapping projects. Refer to the following table for descriptions of options under the **1**-Filter, Export, and Access Options section.

Options	Description
	Use this option to search required mappings.
	Use this option to download mapping information in the XLSX format.
	Use this option to manage access to mapping projects.
	Use this option to print the list of mappings.
	Use this option to select columns that you want to show in a grid. By default, all the columns are selected.

Options	Description
	Use this option to filter mappings based on available columns.

Mapping Details

Mapping details includes additional mapping information, source extract SQL, target update strategy, specification artifacts, and more.

To view mapping details, in the **Mapping** column, click <Mapping_Name>.
