What's New

The latest erwin Data Intelligence (erwin DI) version, v13.0, has the following new features:

[erwin Data Marketplace](#)

[Compare Assets](#)

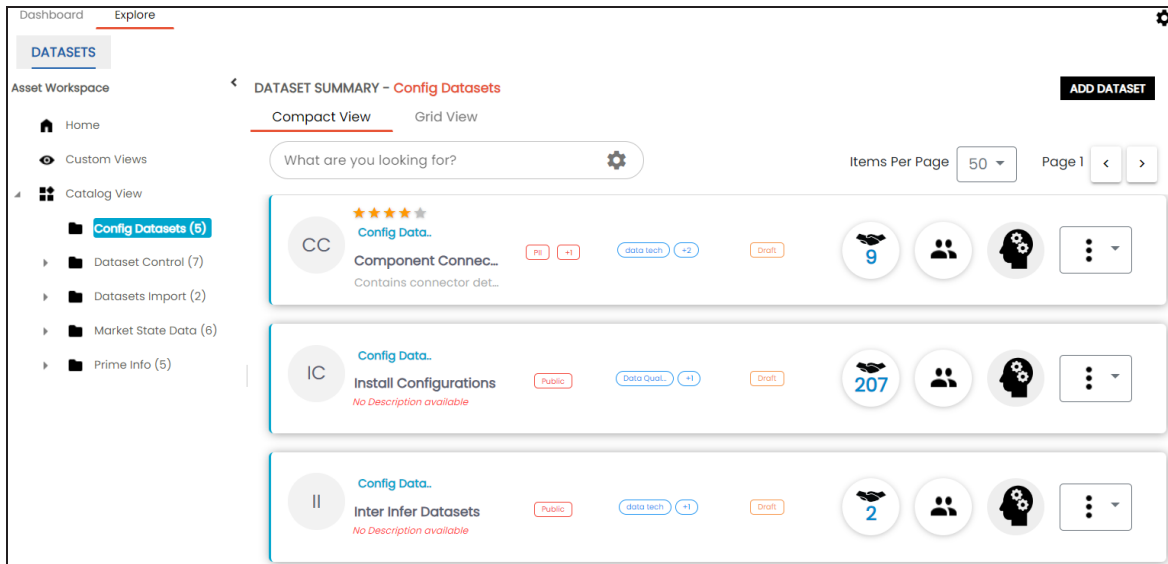

[Discover Assets: Save Searches as Custom Views](#)

[Productivity and UI Enhancements](#)

The following sections explain each feature in brief. For detailed information about features, refer to the [detailed features list](#).

erwin Data Marketplace

Starting erwin DI 13.0, a new capability, [erwin Data Marketplace](#), enables you to shop, share, and compare enterprise datasets at a centralized location. With its rich filters and tags, erwin Data Marketplace makes data discovery easy. Thus enabling you to create and manage datasets, view insights, raise data literacy, and ensure governance. Also, extending the support of multiple marketplace asset types such as Insights and AI Models in the future.

Compare Assets

The new compare feature enables you to compare [business](#) and [marketplace](#) assets side by side. Apart from comparing the assets, it lets you view similar, distinct, and extended properties of the assets in comparison as a filter.

Rating	★★★★★	★★★★★	★★★★★
Definition	The phosphate group that is attached to the 5 carbon atom of a sugar (ribose or deoxyribose) of the terminal nucleotide of a nucleic acid molecule.	A medical device that is considered substantially equivalent to a device that was or is being legally marketed. A sponsor planning to market such a device must submit notification to the FDA 90 days in advance of placing the device on the market. If the FDA concurs with the sponsor, the device may then be marketed. 510(k) is the section of the Food, Drug and Cosmetic Act that describes premarket notification; hence the designation "510(k) device".	New Glossary Term

You can also compare the business and marketplace assets using [Discover Assets](#). For more information about comparing assets in the Discover Assets module, refer to the [Compare Assets](#) topic.

Discover Assets: Save Searches as Custom Views

You can now [save your searches](#) in Discover Assets module as custom views using the new Save As button. These views can then be used to access required results directly from the [Browse by Custom Views tile](#) on Discover Assets dashboard.

What's New

Productivity and UI Enhancements

Moving Business Assets

You can now easily move and organize both default and custom business assets in catalogs of your choice using the Move feature. For more information, refer to the [Moving Business Assets](#) topic.

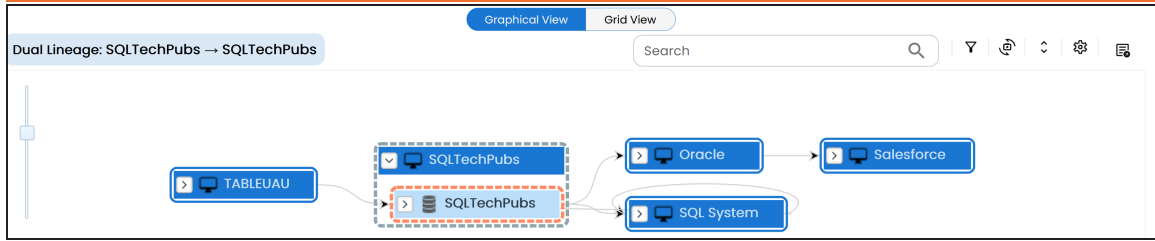

Bulk Tag Assignments

You can now associate enterprise tags with assets in the Data Catalog, Data Literacy, and Data Marketplace modules in bulk. Tags enable faster discovery and asset organization for analysis, thus laying the foundation for automation in future.

Lineage Filtering Options

Search, Filter Objects, and Switch View options have been added to the Graphical View in lineage diagram. These options make the lineage view cleaner and simpler navigate.

What's New

Discover Assets: Card View

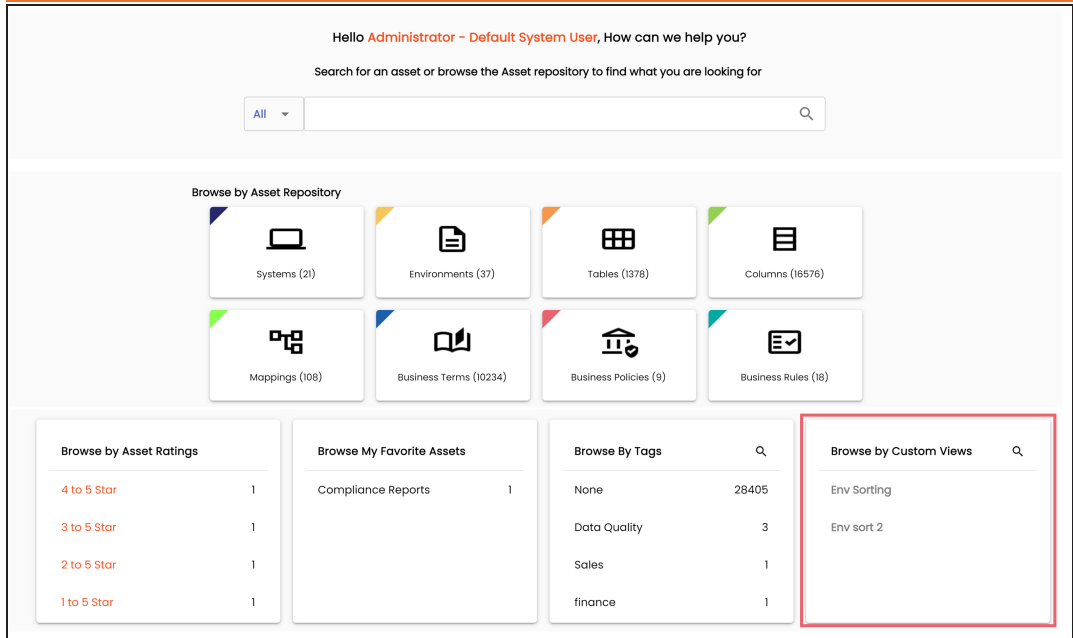

An option, Card View, has been added to the Discover Assets search results page to view results as cards.

The screenshot shows two views of search results for the term 'customer'. The top view is 'CARD VIEW', displaying a single result card for 'CustomerTypeID' from 'SQL System → TechPubs'. The card includes a 'Confidential' tag, a 'Data Quality' indicator, '0 Ratings', and a 'Preli...' status. Action buttons for 'ADD TASK', 'MINDMAP', 'LINEAGE', and 'IMPACT' are visible. The bottom view is 'LIST VIEW', showing two side-by-side result cards for 'CustomerTypeID' from 'SQL System → TechPubs → dbo.CustomerDemogra...' and 'SQL System → TechPubs → dbo.CustomerCustome...'. Each card in the list view includes a 'Confidenti...' tag, 'Data Quali...' indicator, '0 Ratings', and 'Preli...' status.

Discover Assets: Browse by Custom Views

Browse by Custom Views tile has been added to the Discover Assets dashboard. The tile displays all custom views created by you and public custom views created by other users.

What's New

Discover Assets: Search Recommendations

Discover Assets search now displays a list of recommended search terms that matches your keyword.

Business Glossary Manager: Summary

Clicking a business asset type on the Asset Browser now opens a Summary page of objects under the selected business asset type.

Additionally, a Home option has been added to the Asset Workspace pane to open the Summary page. For more information, refer to the [Using Business Glossary Manager](#) topic.

Business Glossary Manager: UI Enhancements

Business Glossary Manager brings significant enhancements to UI when viewing business assets. The new UI displays a comprehensive asset information including the asset details,

What's New

associations, tags, and more on a single page.

The screenshot displays the DQLabs interface for the asset '3-Hydroxyl End'. The interface is organized into several sections:

- Search and Navigation:** A search bar at the top left with the text 'Search by Asset Name or Definition'. A breadcrumb trail shows 'Monetary Terms → Macroeconomics'. A green 'ADD TO COMPARE' button is located at the top right.
- Asset Overview:** A central card for '3-Hydroxyl End' with a 'Preliminary Draft' workflow status, a 5-star rating, and an empty 'Rich Media Library'.
- Asset Information:** A section containing the definition: 'The hydroxyl group that is attached to the 3 carbon atom of the sugar (ribose or deoxyribose) of the terminal nucleotide of a nucleic acid molecule.' It also includes a description 'LEN(D3)' and notes 'No Data Found'. A 'SHOW ADDITIONAL INFORMATION' link is present.
- Related Assets (Associations):** A section titled 'Business Term' with a list of associated assets: '3-A Sanitary Standards Inc - 3-A SSI', '5 End', '510 - K Device', and 'A New Glossary'. Below this, there are buttons for 'A per D', 'A per E', 'A per NDA Batches', 'A2LA', 'AA', 'AAA', 'AAALAC', and 'AAAS'.
- Tags:** A section with a '# Tags' header and a message 'No Tags Found'.
- Governance Responsibilities:** A section with a header and two roles: 'Data Stewards' (Richard Cooper) and 'Compliance Officer' (Luqman Michal).
- Classification:** A section with a lock icon and a message 'No Data Found'.
- Audit History:** A section with a clock icon and the text 'Audit History'.

At the bottom left, there are navigation buttons for 'PREVIOUS', 'Page 1', and 'NEXT'.

DQLabs: Harvest SDI Classifications for Metadata

You can now harvest SDI classifications for technical assets via scheduled sync jobs and update the metadata in your organization in DQLabs. For more information about con-
