**User Guide - SSL Certificate for Windows IIS**

# Legal Notices

This Documentation, which includes embedded help systems and electronically distributed materials (hereinafter referred to as the Documentation), is for your informational purposes only and is subject to change or withdrawal by Quest Software, Inc and/or its affiliates at any time. This Documentation is proprietary information of Quest Software, Inc and/or its affiliates and may not be copied, transferred, reproduced, disclosed, modified or duplicated, in whole or in part, without the prior written consent of Quest Software, Inc and/or its affiliates.

If you are a licensed user of the software product(s) addressed in the Documentation, you may print or otherwise make available a reasonable number of copies of the Documentation for internal use by you and your employees in connection with that software, provided that all Quest Software, Inc and/or its affiliates copyright notices and legends are affixed to each reproduced copy.

The right to print or otherwise make available copies of the Documentation is limited to the period during which the applicable license for such software remains in full force and effect. Should the license terminate for any reason, it is your responsibility to certify in writing to Quest Software, Inc and/or its affiliates that all copies and partial copies of the Documentation have been returned to Quest Software, Inc and/or its affiliates or destroyed.

TO THE EXTENT PERMITTED BY APPLICABLE LAW, QUEST SOFTWARE, INC. PROVIDES THIS DOCUMENTATION AS IS WITHOUT WARRANTY OF ANY KIND, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR NONINFRINGEMENT. IN NO EVENT WILL QUEST SOFTWARE, INC. BE LIABLE TO YOU OR ANY THIRD PARTY FOR ANY LOSS OR DAMAGE, DIRECT OR INDIRECT, FROM THE USE OF THIS DOCUMENTATION, INCLUDING WITHOUT LIMITATION, LOST PROFITS, LOST INVESTMENT, BUSINESS INTERRUPTION, GOODWILL, OR LOST DATA, EVEN IF QUEST SOFTWARE, INC. IS EXPRESSLY ADVISED IN ADVANCE OF THE POSSIBILITY OF SUCH LOSS OR DAMAGE.

The use of any software product referenced in the Documentation is governed by the applicable license agreement and such license agreement is not modified in any way by the terms of this notice.

The manufacturer of this Documentation is Quest Software, Inc and/or its affiliates Provided with Restricted Rights. Use, duplication or disclosure by the United States Government is subject to the restrictions set forth in FAR Sections 12.212, 52.227-14, and 52.227-19(c)(1) - (2) and DFARS Section 252.227-7014(b)(3), as applicable, or their successors.

# Contents

# Purpose

The purpose of this document is to serve as a user guide for importing SSL certificates in Windows 10/11.

# Prerequisites

- Windows IIS
- SSL Certificate (.pfx)
- ad certificate (pfx)
- DNS must be available and must be pointed to the server public IP address.

# Installation Steps

## Open IIS Manager

- On the Start screen, click the Control Panel.
- Click System and Security, and then click Administrative Tools.
- In the Administrative Tools window, double-click Internet Information Services (IIS) Manager
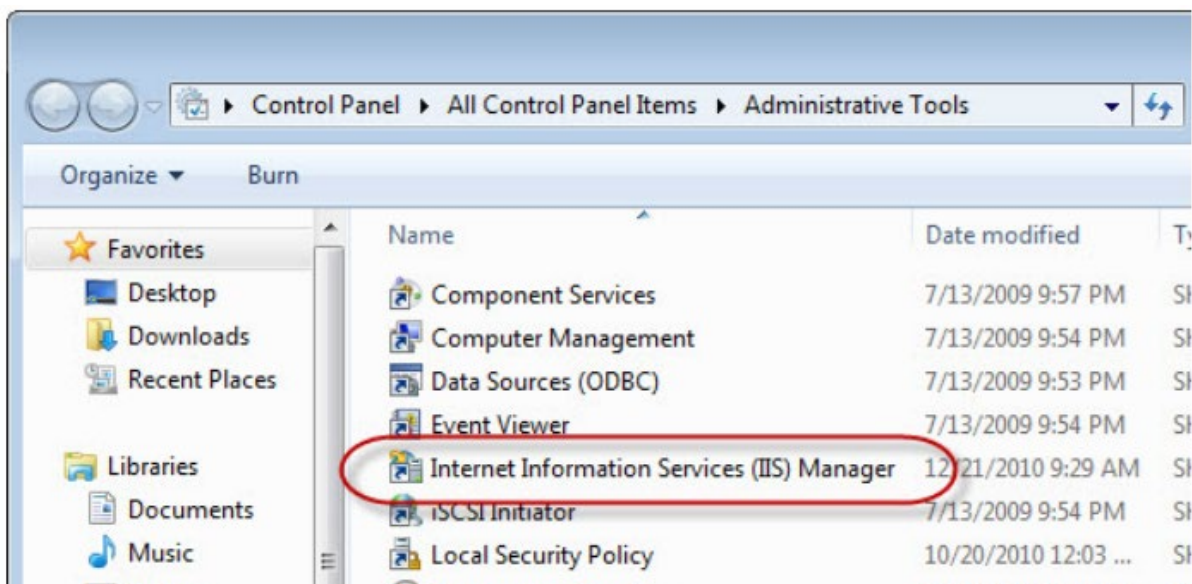

# Importing

- Select the server in the **Connections** pane, on the left side of the window.

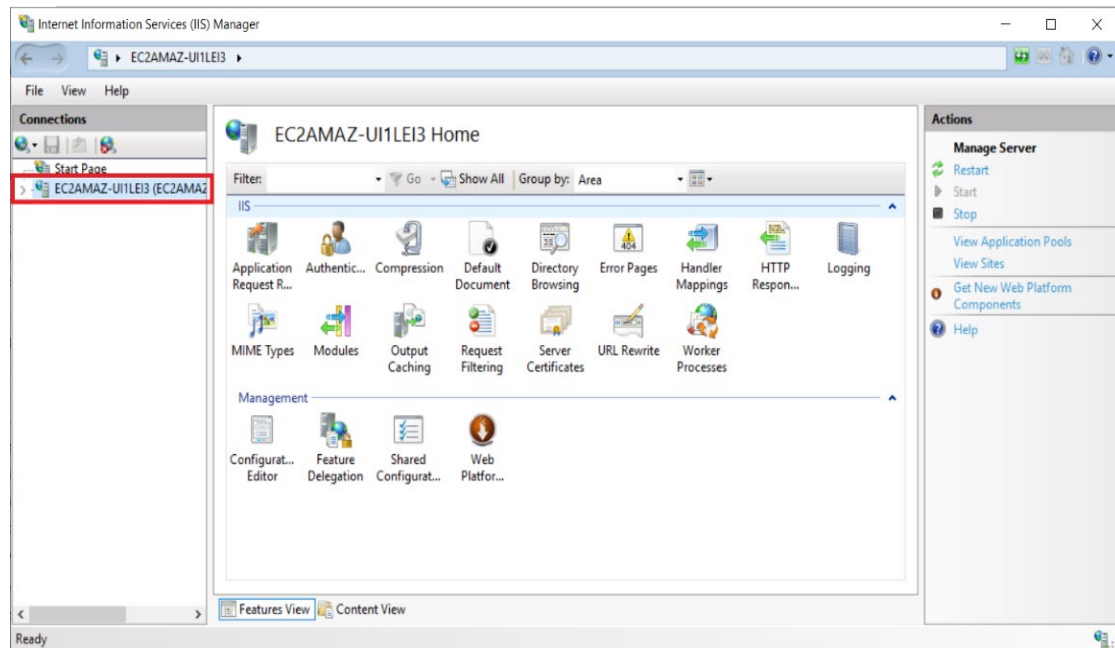

- Double-click the **Server Certificates** icon, located under IIS in the centre pane of the window.
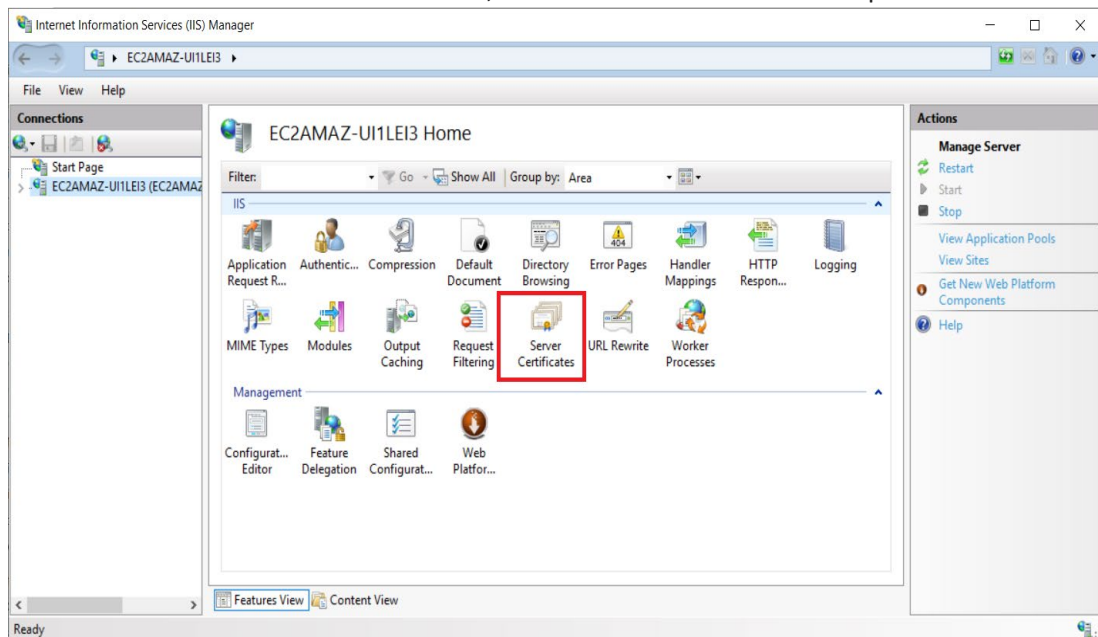

- Click **Complete Certificate Request.** in the Actions pane, on the right side of the window.

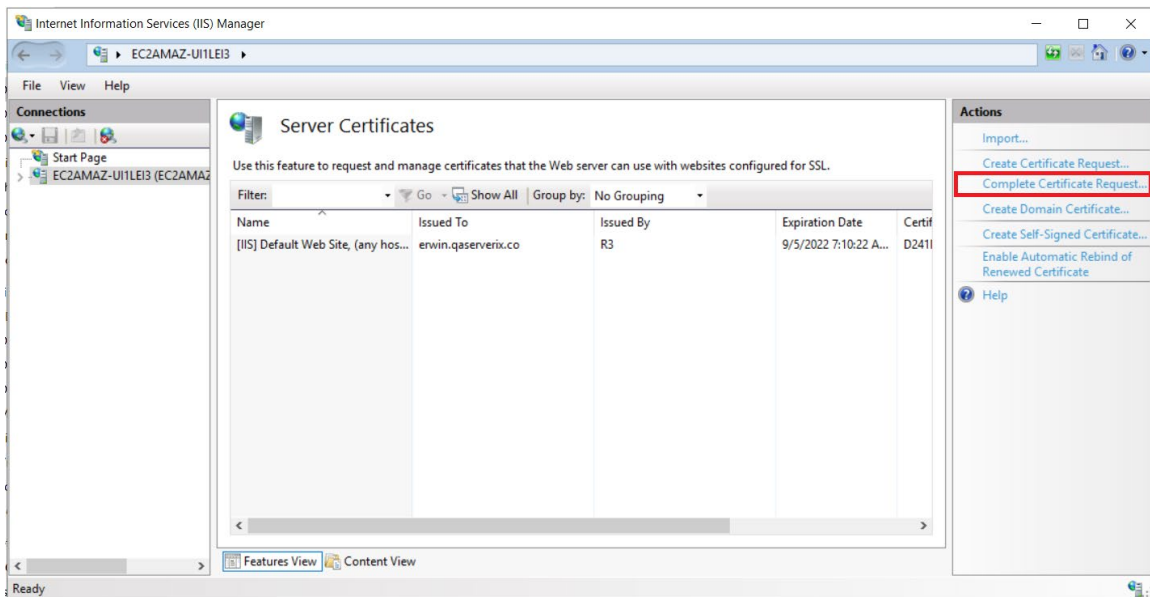

- The **Complete Certificate Request** wizard will appear. First, click the button labelled "**…**" to open the file open dialog box.
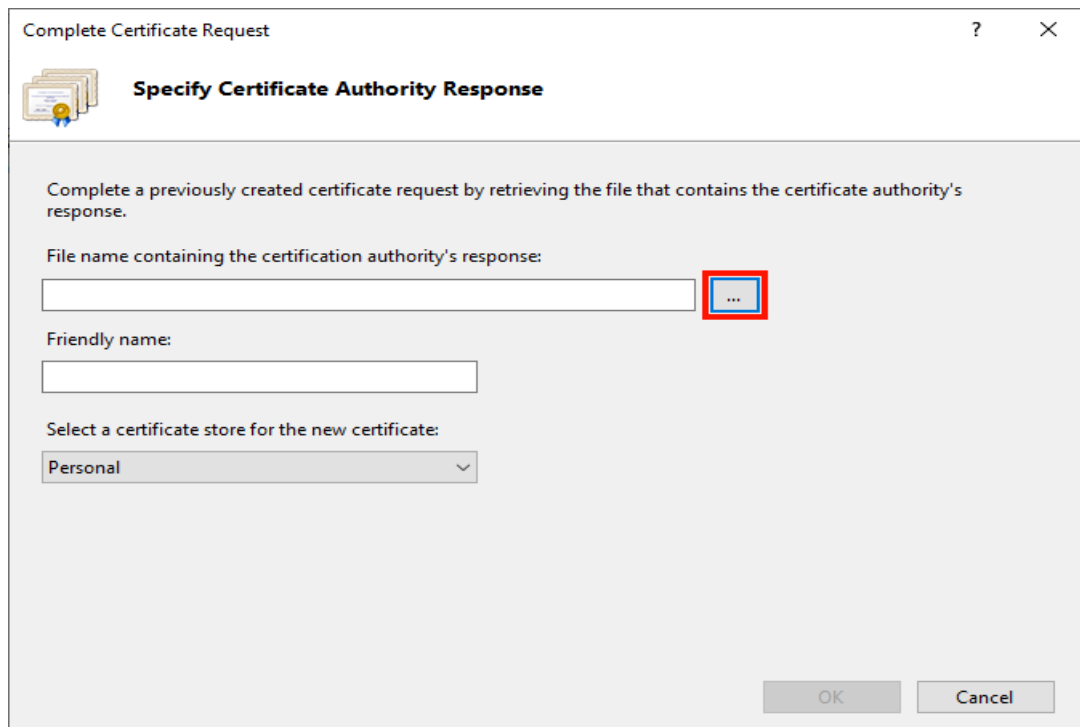

- Select the .pfx(SSL Certificate) file you downloaded from SSL.com.

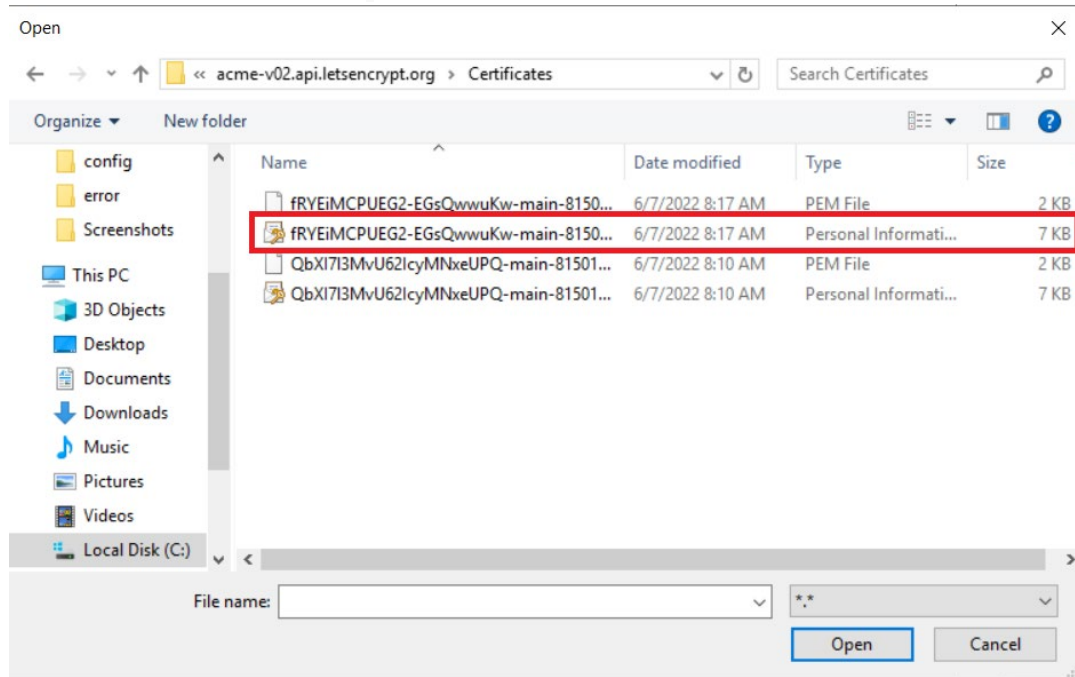

- Click the **Open** button.

- Next, enter a name for the certificate in the **Friendly name** field.
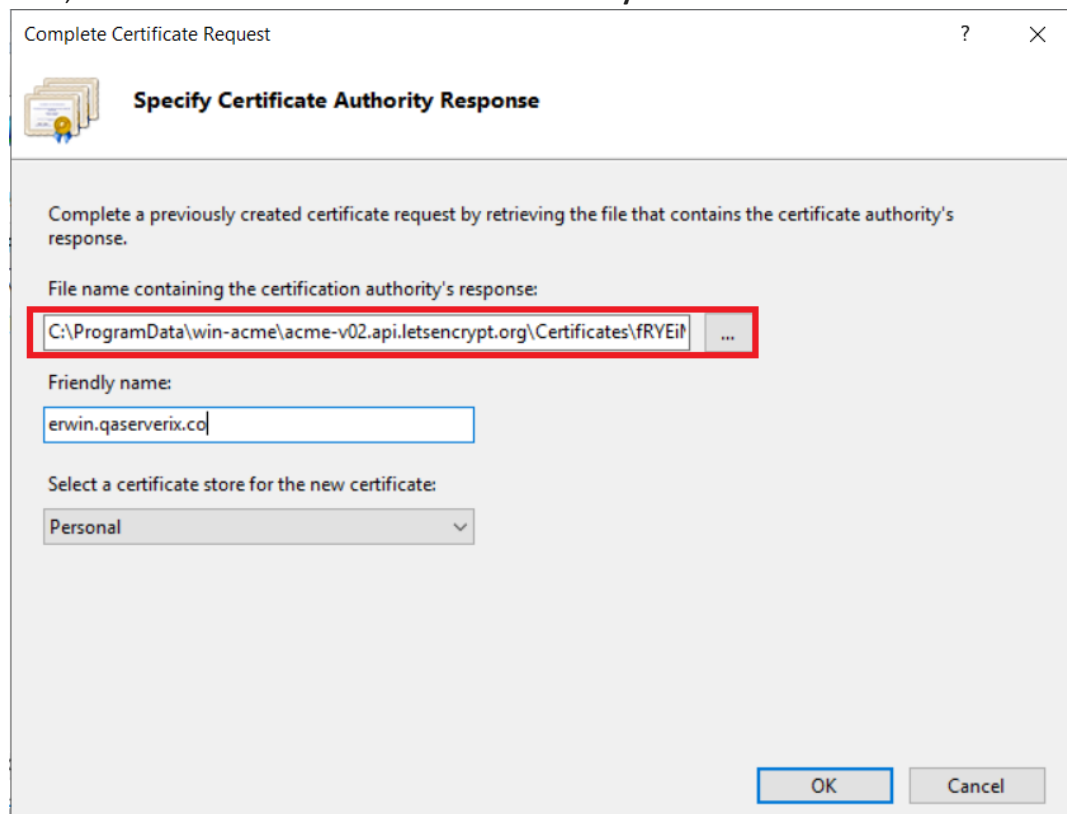

- Click the **OK** button.

- The certificate is installed.

# Binding in Windows IIS

## Start IIS Manager:

- On the Start screen, click the Control Panel.
- Click System and Security, and then click Administrative Tools.
- In the Administrative Tools window, double-click Internet Information Services (IIS) Manager

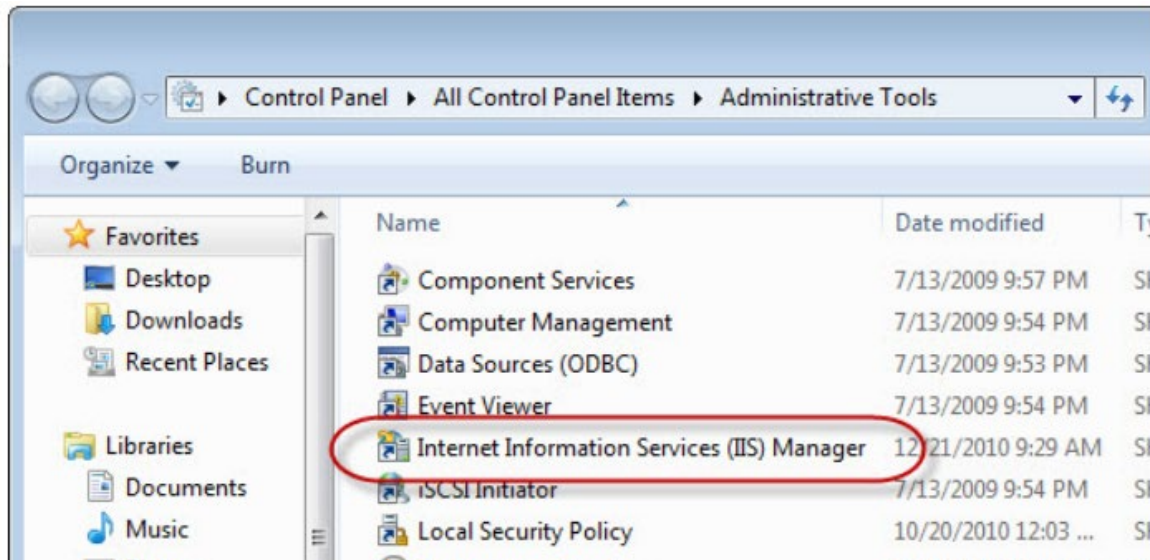

## Select a website:

In the **Connections** pane on the left side of the window, navigate to the **Server** and **Site** you wish to bind the certificate to.

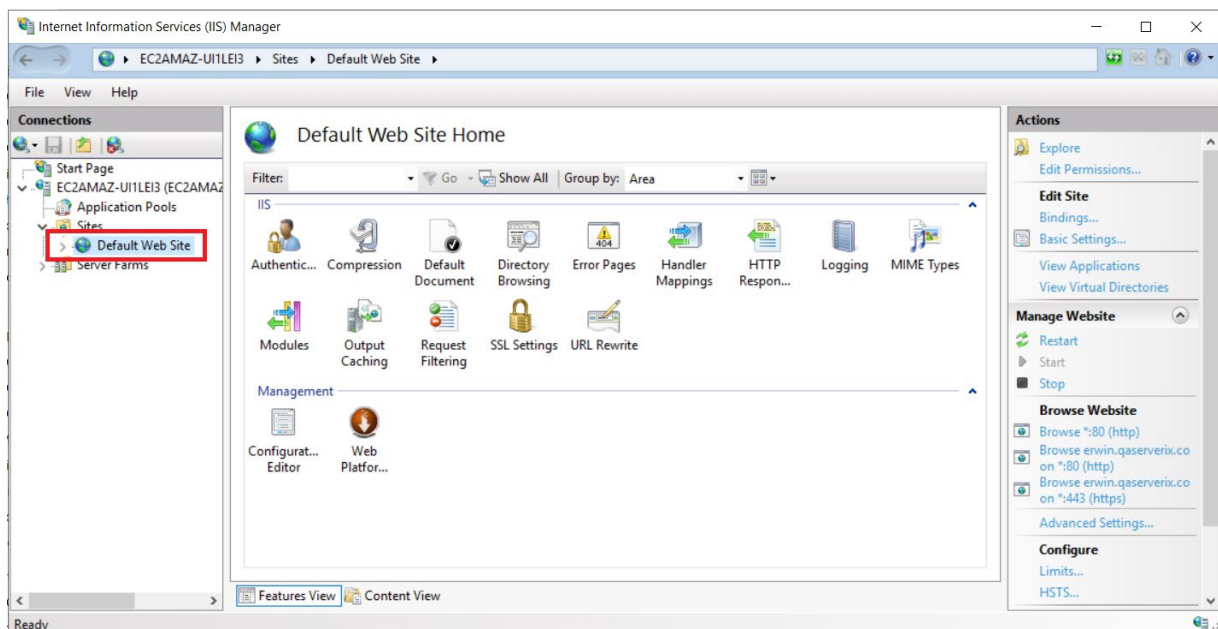

## Open bindings:

- In the **Actions** pane on the right, click **Bindings:**
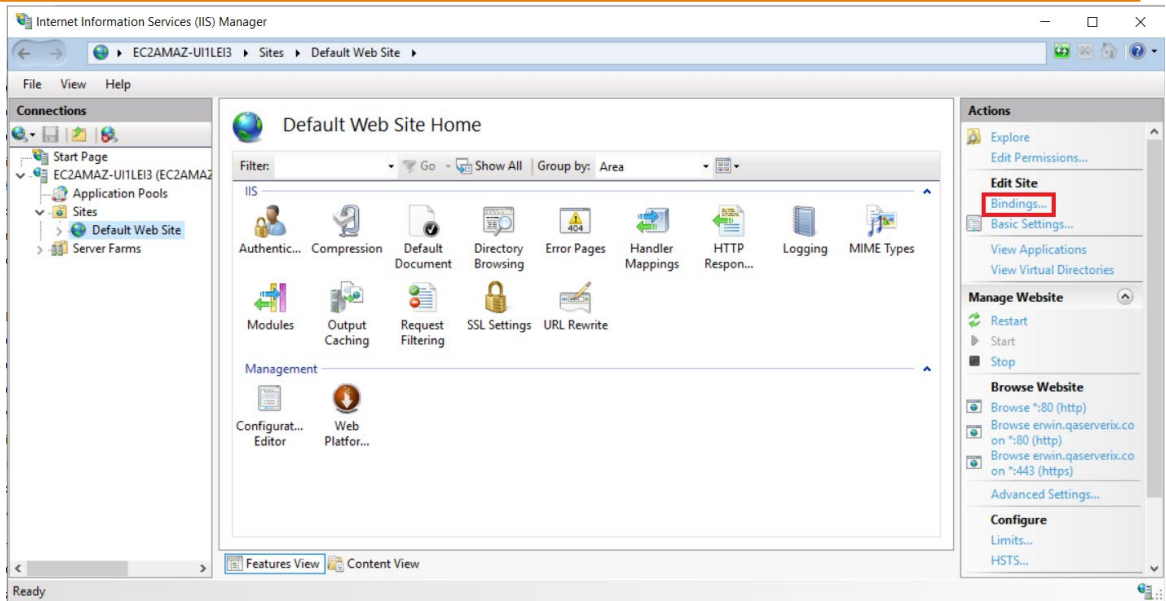

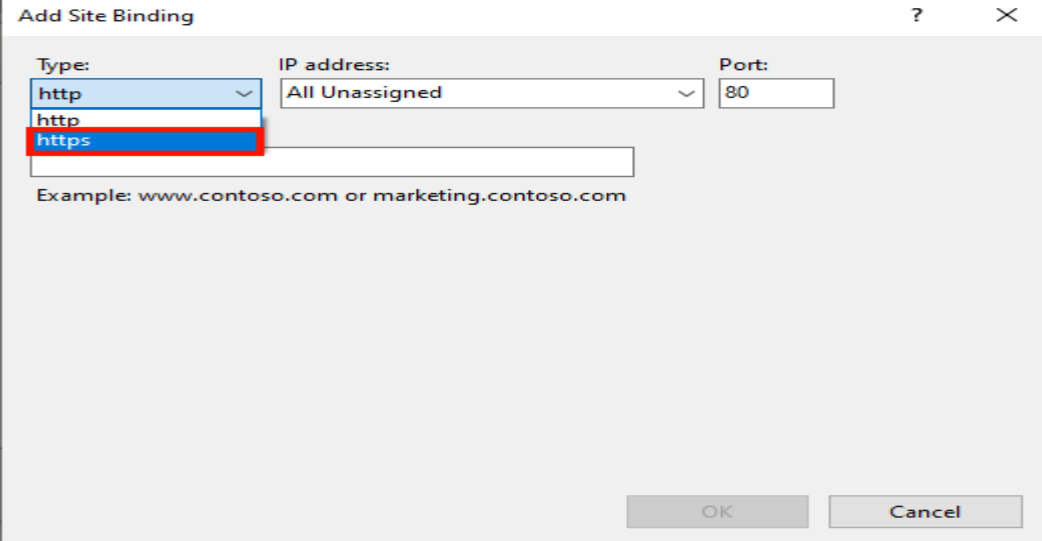

## Click Add:

- Click the **Add...** button.
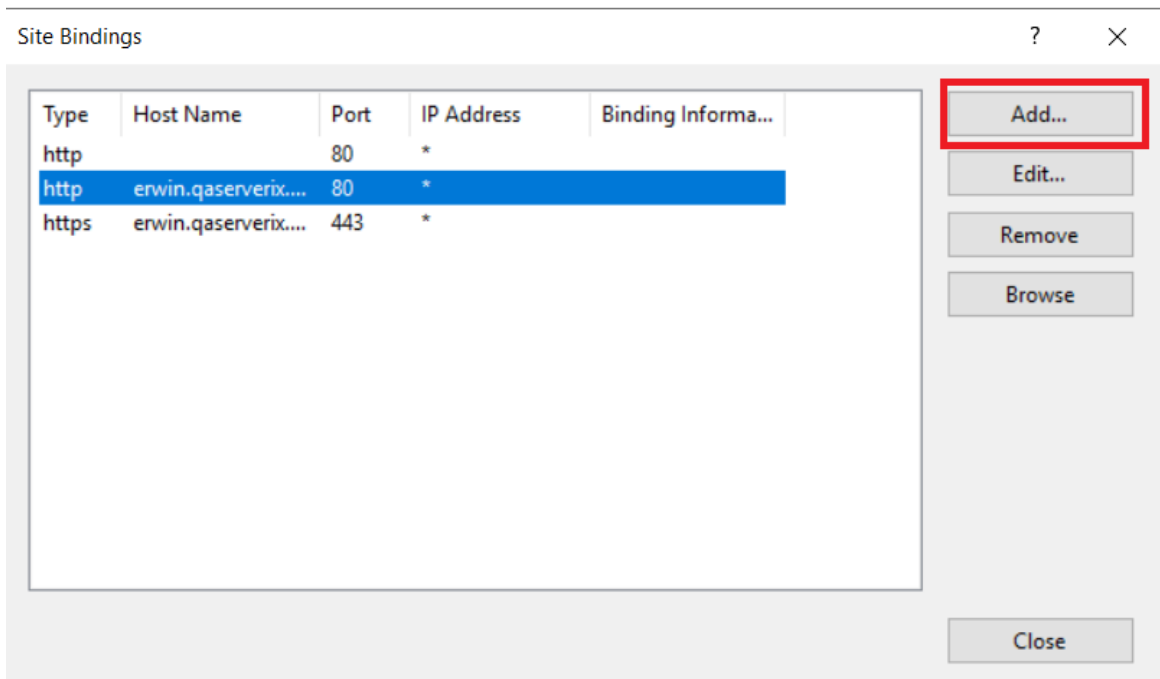

## Select binding type:
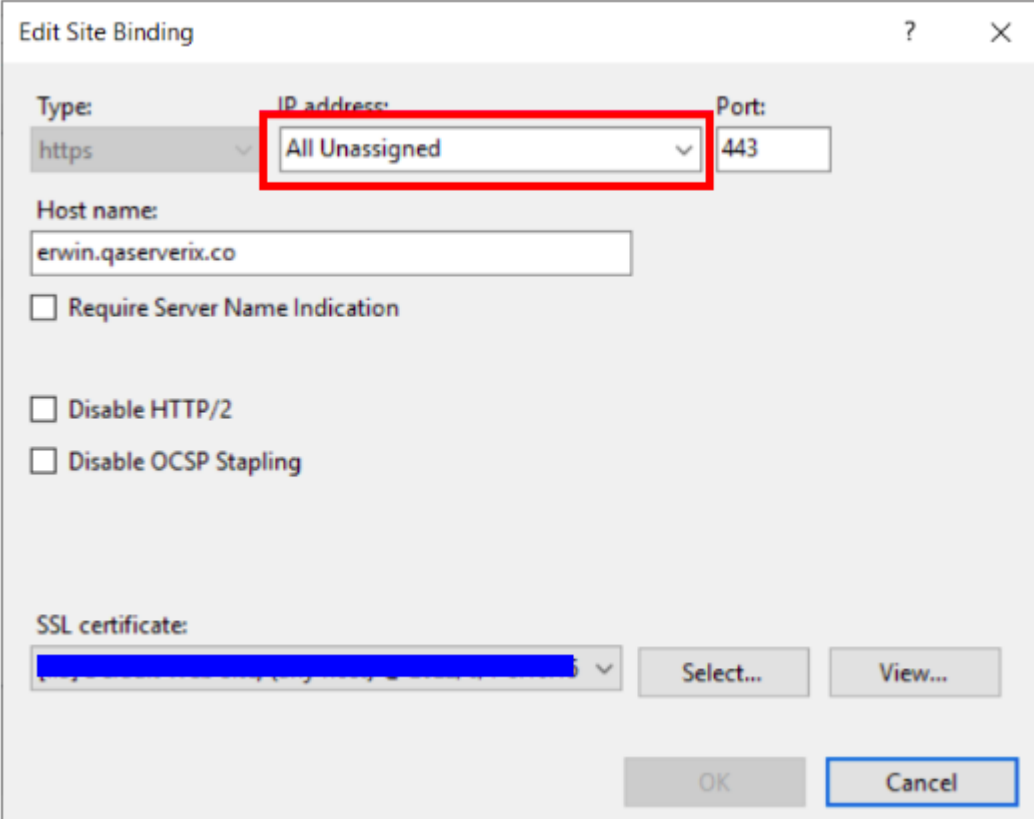

- The **Add Site Binding** window will open. For **Type**, select https.

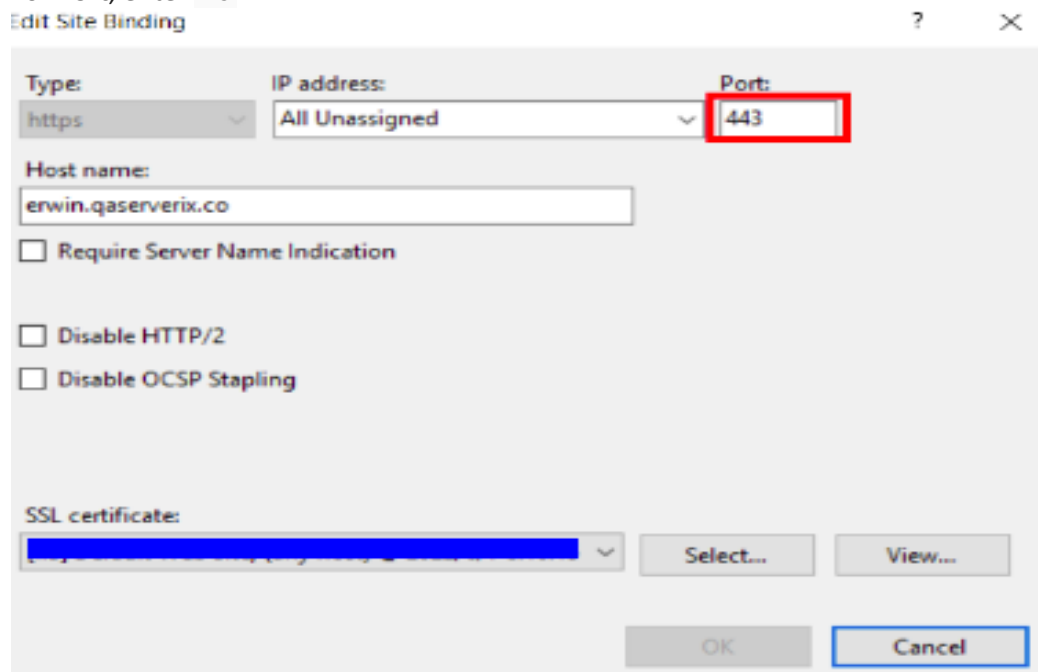

## Select IP address:

- For **IP address**, select All Unassigned, or the site's IP address.

# Enter port:

- For **Port**, enter 443.

# Select certificate:

- Select the desired certificate from the **SSL certificate** drop-down menu.

# View certificate details:
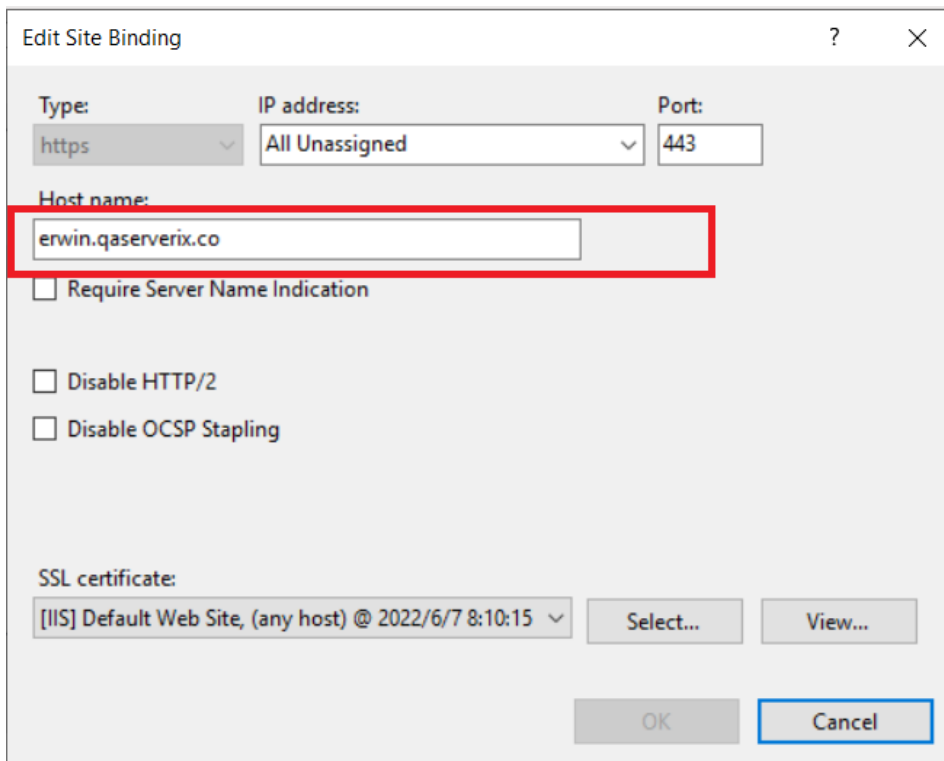

- You can use the **View…** button to get details about the selected certificate.

## Require Server Name Indication (SNI) if necessary.

- If you are serving more than one domain name from the same IP address, enter it in the **Host name** field and check the **Require Server Name Indication** box. If not, you can safely leave these blank.

## Close "Add Site Binding" window:

- Click the **OK** button to close the window.

## Close "Site Bindings" window:

- Verify that the binding has been added, then close the **Site Bindings** window by clicking the **Close** button.
